To Whom it may Concern

I have known Liz Hart for a number of years and have worked closely with Liz over the past 18 months on the Waterberg project, where Liz and her staff managed all of the events and public relations for the development.

Liz employs a professional team and together they have consistently under promised and over delivered. All of the launches and other events that we have hosted, including the various visits by Jack Nicklaus and Ernie Els, have run like clockwork and without any hitches.

Liz has also consulted on some of the property related issues and assisted with strategic marketing advice for the development and her input has been invaluable. She has a keen mind and sees the issues and challenges with ease, offering practical advice and solutions.

Two of the most important character traits that I admire in any individual are synonymous with Liz Hart, Integrity and Reliability. I am aware that she has from time to time worked into the early hours to meet deadlines, and yet has never looked to take advantage when it came to charging us. Liz has passed on cost savings from sub-contractors where we would never have been aware of these and her integrity and honesty is refreshing in this world of questionable ethics.

This reference does not do justice to this remarkable woman, and I congratulate anyone that contracts or partners with Liz in business.

I invite you to call me on 082 446-1417 if you would like any further information.

Yours faithfully

Tony Georgios
Managing Director
